MULTIPLE USERS**

**SAVES
TIME**

**STANDARD OR
CUSTOMIZABLE**

Know-Risk™ is a robust, state-of-the-art, system of record solution for commodity management, helping you to make informed business decisions.

Why Choose Know-Risk™?

Developed by Global Experts in Commodity Risk Management.	INTL FCStone Inc. has 20,000 accounts representing approximately 11,000 consolidated customers, in more than 100 countries worldwide. We understand our clients' specific objectives when it comes to managing commodity portfolios.
Customizable and Adaptable.	Know-Risk™ can be set up according to each client's specific needs. Drill down capabilities exist by division, portfolio, business unit, etc.
Priced Competitively.	Software vendors typically provide rigid template systems built to encompass the majority of their users and price it as one package. Our clients only pay for what they need and design their system accordingly.
Easy to Use.	Know-Risk™ has an intuitive design. We simplify the workload by pushing and pulling data between Know-Risk™ and the client's existing data sources. Training sessions and technical support are accessible to all users.
Accessible Anywhere, Anytime.	Know-Risk™ is web-based and accessible 24/7 on virtually any computer or tablet. It requires no download or software installation.
