

FIN Automated Delivery

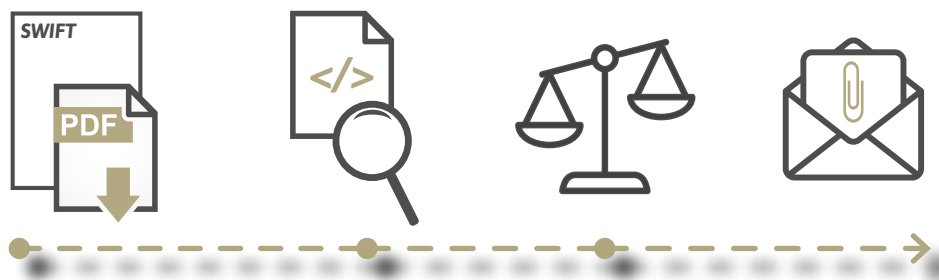

Real-time PDF conversion and e-mail notification for improved efficiency and client service

FIN Automated Delivery (FAD) provides real-time notification of MT messages, converts them into PDFs and emails them to clients based on configurable rules on any MT field.

Benefits	Features
<ul style="list-style-type: none"> • Reduced time spent scanning and emailing MTs manually • Reduced paper consumption • Better experience for clients 	<ul style="list-style-type: none"> • Configurable filename for PDF • Flexible and easily configurable email rules • E-mail templates with variable fields • Send emails locally or worldwide • 256-bit AES encryption

HOW IT WORKS

1. Messages are extracted from SWIFT and converted to PDF format.
2. Based on preset rules, FAD finds the required metadata on MT.
3. The metadata is compared against the correlation table that provides the email addresses.
4. The PDF is attached on the defined e-mail template and sent.
