DISTRIBUTION OF PARCELS BY PROPERTY CLASS, 2008 ASSESSMENT ROLLS

Introduction

The New York State Office of Real Property Services (ORPS) has developed a set of real property use codes which are used by assessors to describe the use of all parcels listed on assessment rolls. The ORPS classification system is uniformly applied to all New York State municipalities. A description of each of the specific codes is provided as an appendix to this report.

Individual codes, which are three-digit, are grouped into nine general categories, referred to as broad use categories. Broad use categories are composed of divisions, indicated by the second digit, and subdivisions (where necessary), indicated by a third digit. The nine categories are:

<u>Broad Use Category</u>	<u>Description</u>	<u>Broad Use Category</u>	<u>Description</u>
100	Agricultural	600	Community Services
200	Residential	700	Industrial
300	Vacant Land	800	Public Service
400	Commercial	900	Wild, Forested, Conservation Lands & Public Parks
500	Recreational & Entertainment		

This report shows the number of parcels contained within each of the 302 property classification codes which were valid for 2008 assessment rolls. Parcel count summaries for each of the nine broad use categories are provided in a separate table for each county exclusive of New York City's five boroughs.

The New York City and Nassau County assessment rolls also classify property according to four classes. For the 2008 assessment roll, the following distribution occurred:

<u>Class</u>	<u>Property Description</u>	<u>Number of Parcels</u>	
		<u>Nassau County</u>	<u>New York City</u>
1	One, two and three-family residences, certain residential condominiums, and certain vacant land parcels	383,657	705,620
2	Residential property other than Class 1	5,511	225,642
3	Public utility property	2,516	5,030
4	Property not included in Classes 1, 2, or 3	<u>29,928</u>	<u>101,691</u>
	Total Parcels	421,612	1,037,983

The chart on page 3 shows the relative shares for each of the nine broad use categories. Nearly 70 percent of the parcels belong to the residential class. The next most populous category is vacant land, representing 12.6 percent of all parcels. Commercial properties rank third and comprise 11.9 percent of the total parcel count. The remaining valid categories range from a low of 0.3 percent (recreation and entertainment) to a high of 1.4 percent (agricultural). Properties assigned invalid classification codes represent less than 0.2 percent of all codes, indicating the high level of successful adoption the classification system has achieved.

HOW TO LOCATE THE CORRECT PROPERTY CLASSIFICATION CODE

The New York State Office of Real Property Services has developed a simple and uniform classification system to be used in assessment administration in New York State.

The system of classification consists of numeric codes in nine categories. Each category is composed of divisions, indicated by the second digit, and subdivisions (where required), indicated by a third digit. The nine categories are:

<u>Category</u>	<u>Description</u>
100 Agricultural	Property used for the production of crops or livestock.
200 Residential	Property used for human habitation. Living accommodations such as hotels, motels, and apartments are in the Commercial category - 400.
300 Vacant Land	Property that is not in use, is in temporary use, or lacks permanent improvement.
400 Commercial	Property used for the sale of goods and/or services.
500 Recreation & Entertainment	Property used by groups for recreation, amusement, or entertainment.
600 Community Services	Property used for the well being of the community.
700 Industrial	Property used for the production and fabrication of durable and non-durable man-made goods.
800 Public Services	Property used to provide services to the general public.
900 Wild, Forested, Conservation Lands & Public Parks	Reforested lands, preserves, and private hunting and fishing clubs.

The table shown below is part of the coding structure in the Recreation and Entertainment Category. This table demonstrates how to decide what code to use when a property is either clearly described or inadequately described.

- 500 - Recreation and Entertainment (Category)
 - 530 - Amusement Facilities (Division)
 - 531 - Fairgrounds
 - 532 - Amusement Parks
 - 533 - Game Farms
 - 534 - Social Organizations
- } (Subdivisions)

The number "0" has been reserved to fill in the coding structure where description of a property is inadequate to assign a code at the division level, subdivision level or where it was not necessary to establish a subdivision level.

A Recreation and Entertainment facility that cannot be classified at a division level, should be coded "500" (category).

An amusement facility that is not a fairground, amusement park, game farm, or a social organization should be coded "530" (division).

A fairground should be coded "531" (subdivision).

700 INDUSTRIAL

A parcel including an office building on land located adjacent to or near an automobile assembly plant and used principally by the automobile manufacturer for its own offices should be coded as industrial under the appropriate division below. However, if such building is used principally by tenants leasing space therein, the parcel should be coded as commercial.

Also, an office building used principally by an industrial concern but located remote from its manufacturing plant should be coded as commercial rather than industrial (e.g., office buildings in Manhattan occupied principally by industrial companies whose manufacturing activities are located elsewhere throughout the country).

Parcels used for research aimed primarily at improving products should be coded as industrial, while parcels used for marketing research should be coded as commercial.

710 Manufacturing and Processing

712 High Tech. Manufacturing and Processing -- These buildings are used as research laboratories with a high percentage of office/laboratory space. The construction costs of these facilities are higher than other warehouse/manufacturing facilities reflecting their architectural design, super adequate upgrades, and more comprehensive finish.

714 Light Industrial Manufacturing and Processing -- These structures may have been built for a specific manufacturing process. They feature high ceilings and open construction which allows for good workflow.

715 Heavy Manufacturing and Processing -- These are large area structures design and built for production. They will have extensive concrete foundations for industrial equipment and a high voltage electrical system.
