

## Twitter announces its first engineering centre investment in the Asia Pacific region

*Commitment to hire 65 technical talent over the next few years to boost Asia Pacific headquarters in Singapore*

**SINGAPORE, 13 February 2020** – Twitter, Inc. (NYSE: TWTR) announced today that it is building its first-ever engineering centre in Asia Pacific as part of its expansion in this high-growth region. To be based in the company’s Asia Pacific headquarters in Singapore, the engineering centre will help Twitter to strengthen its global engineering capabilities as well as improve service availability and reliability for people who use Twitter around the world.

The company is committing to hiring 65 technical talent in Singapore covering product engineering, software engineering, data engineering and data science. This additional investment in R&D for Twitter in Singapore comes after the success of Twitter’s international data science team, founded in Singapore in 2016 which was the company’s first outside of the US.

“Asia Pacific has always been a growth engine for our company and this new engineering centre is a strategic investment that demonstrates our commitment to this important region where people, partners and brands come every day to see what’s happening in the world and to talk about it,” says Maya Hari, Vice President of Asia Pacific at Twitter. “We are thrilled to bring some of the best, cutting-edge engineering jobs for a global Internet platform to Singapore, from product development to data science to machine learning, and this is truly an amazing time to join our purpose-driven company to serve the public conversation across the world.”

Michael Montano, Global Head of Engineering at Twitter added, “I am excited that we’re adding to our world-class engineering team with this new engineering centre in Singapore. This is a pivotal moment for Twitter as we focus on accelerating development and continuing to serve the global public conversation.”

“The latest investment by Twitter to establish Singapore as a key engineering centre marks another milestone in our continued partnership,” said Kiren Kumar, Chief Digital Industry Officer, Digital Industry Singapore. “Twitter’s move demonstrates confidence in Singapore as a world-class engineering talent hub, and will create exciting, new job opportunities for Singapore and Singaporeans.”
