

Livestock Risk Protection - Swine

Manage Your Market Risk with Market Risk-Management Professionals

The Livestock Risk Protection - Swine insurance tool enables livestock operations to protect revenue from adverse changes in the price of swine, creating the opportunity to lock in profits. Run by the USDA's Risk Management Agency, LRP is available through approved insurance agents in SA Stone. Several members of StoneX Financial Inc. – FCM Division, which focuses on livestock risk management, are registered with SA Stone to provide LRP to their clients.

KEY DETAILS

- Available in all 50 states throughout the year
- Producers can insure up to 40,000 head per endorsement/ limit 150,000 per crop year
- Premium is subsidized between 35 and 50% depending on coverage level
- Premium may be paid at the end of the endorsement period
- Insurance periods ranging from 13 weeks to 52 weeks
- Settled to price as reported by Agricultural Marketing Service (AMS)

MARKET EXPERTISE MAKES A DIFFERENCE

LRP differs from most insurance products in that it provides protection specifically against market price risk. This puts our price-risk management consultants in a unique position to:

1. Help producers optimize LRP coverage to fit their operations and needs precisely
2. Leverage LRP as part of a larger risk management strategy that can help producers protect revenue, lock in profits and perhaps even capture some upside.

With rates and subsidy percentages the same across all agents, our decades of experience and access to deep market liquidity can make a decisive difference in making LRP - Swine work for you.
